

Amendment 24/08 to the Official Rules

Produced by the World Freestyle Football Association
Last updated on August 29th, 2024

This document lists the amendments that are to be applied in all official competitions of the World Freestyle Football Association, as well as those that abide by the WFFA Rules and therefore may be eligible to enter the World Rankings, from August 2024 on.

Amendment 1: About the Qualification Circles

- In competitions that feature two or more rounds of Circle qualifications, the points given by the judges in the first Circle round will supersede the World Ranking and determine the winner(s) of the second Circle in case of a draw in points between two or more athletes.

Amendment 2: About the Extra Rounds

- Extra Rounds may be used in Circles in the following two situations:
 - a) In competitions featuring only one round of Circle qualifications, in case of a draw in points between two or more athletes, an Extra Round may be used instead of the World Ranking to determine the winner of a specific Circle, provided that the schedule allows enough time for it.
 - b) In competitions featuring two or more rounds of Circle qualifications, in case of a draw in points between two or more athletes, an Extra Round may be used instead of the World Ranking and the points in the previous Circle round to determine the winner of a specific Circle, provided that the schedule allows enough time for it.
- The inclusion of Extra Rounds in a particular Event is a decision that only the corresponding Event Director has the authority to make. In case of deciding in favour of said Extra Rounds, the choice will need to be made before the competition and clearly communicated to all event stakeholders (including judges, participants and MCs) before the kick-off.
